the review of 2015/16 ................................................................. 20-23
As the Chair of the Hull College Group Corporation of Governors, I am privileged to be part of a group of colleges which provides good quality technical and vocational training for young people and adults to enhance their career opportunities and family lives.

The Group has faced a challenging year as a result of the effects of policy and funding and demographic changes but has continued to provide high quality education and training leading to positive outcomes for thousands of our students. There has been much to celebrate throughout 2015-16. All staff worked diligently to achieve a good OFSTED outcome and a commended Higher Education Review. HCUK Training has improved the success rates of apprenticeships and student competition successes continue apace. Our staff work with commitment and endeavour to support students in achieving their goals and students leave us with good credentials for employment and further study.

Over the previous year Hull College Group has continued to invest significantly in its infrastructure and facilities to the benefit of all our students. The £6m Harrogate College estate refurbishment and additional build has been completed on time and both students and staff are enjoying the excellent facilities. Our new carpentry and joinery workshop has also opened in Goole delivering vital skills needed by local industry; the provision is already excellent facilities. Our new carpentry and joinery workshop at Goole College, the establishment of the new Steve Prescott Sports Centre, re-launch of Hull’s training restaurant HU1 Riverside and perhaps the most ambitious, the relocation of our Creative Arts provision at Park Street to the newly created HU1 Visual Arts Studios at our Queen’s Gardens site.

The Group has faced a challenging year as a result of the effects of policy and funding and demographic changes but has continued to provide high quality education and training leading to positive outcomes for thousands of our students. There has been much to celebrate throughout 2015-16. All staff worked diligently to achieve a good OFSTED outcome and a commended Higher Education Review. HCUK Training has improved the success rates of apprenticeships and student competition successes continue apace. Our staff work with commitment and endeavour to support students in achieving their goals and students leave us with good credentials for employment and further study.

Over the previous year Hull College Group has continued to invest significantly in its infrastructure and facilities to the benefit of all our students. The £6m Harrogate College estate refurbishment and additional build has been completed on time and both students and staff are enjoying the excellent facilities. Our new carpentry and joinery workshop has also opened in Goole delivering vital skills needed by local industry; the provision is already attracting applicants for 2016-17.

Hull College made a successful transfer of its Arts further education provision from Park Street to the Queen’s Garden campus. The staff and students have made this part of the campus distinctive and much appreciated by users and visitors alike, a valuable addition to the city centre as Hull prepares for its year as UK City of Culture.

As Chair I thank all those staff and students who have continued to work and study diligently, notwithstanding the challenges we face, and continue to make Hull College Group an exciting and successful place to learn. I assure all those committed to the welfare of Hull College Group that, with other members of the Corporation, I will work assiduously to help us through the demanding times ahead.

Pat Tomlinson
Corporation Chair

This has been another great year of successes across the Hull College Group and once again I am proud of all the staff and students who have helped drive the organisation forward throughout 2015-16.

As an organisation, Hull College Group undergoes constant development to ensure we continue to meet the needs of both our current students and those who will study with us in the future; providing an excellent personalised learning experience in high quality, inspiring and sustainable learning environments.

In terms of quality, 2015-16 was a year in which we were able to clearly demonstrate the high standard of provision across the Group and it was in this year the Group was awarded with an OFSTED rating of ‘Good’ and our Higher Education provision received an excellent Higher Education Review with no areas for improvement and many areas of commendation. All of our HE programmes achieved positive validation from the Open University and we became just the FIFTH College in the UK to secure Foundation Degree Awarding Powers. National and International Skills competitions showcased the quality of our students’ work and it was during this year we saw three students progress to the Final selection stage in the WorldSkills competition, and one of these three, Josh Hunter, subsequently go on to represent the UK in EuroSkills Gothenburg, bringing home a medal of Excellence in Bricklaying.

Our curriculum strategy continued to evolve and enjoyed many new partnerships to further enhance the student experience. Harrogate College celebrated the beginning of a new partnership in conjunction with Harrogate Town Football Club and Goole College introduced the Construction Skills Certificate Scheme within their new Business & Logistics Centre. A number of new courses were also introduced including the AAT Accountancy qualification at Goole and new programmes for Journalism and Criminology with HCUK Training delivering their first Department for Work and Pensions contract. Last year also saw the Group secure a £1m training contract with Siemens as we established a bespoke training centre in East Hull to train employees for the development of the new wind turbine assembly plant in the city.

Hull College Group continues to invest in the development of the estates across all sites to ensure our facilities remain unrivalled and state of the art. These developments included the £6m Campus refurbishment at Harrogate, the new Carpentry & Joinery workshop at Goole College, the establishment of the new Steve Prescott Sports Centre, re-launch of Hull’s training restaurant HU1 Riverside and perhaps the most ambitious, the relocation of our Creative Arts provision at Park Street to the newly created HU1 Visual Arts Studios at our Queen’s Gardens site.

Our staff enjoyed the implementation of the Star Benefits Scheme and the Group introduced the new Value Driven rewards system, which encouraged staff to vote for colleagues who have provided excellent value to the Group. A new pay progression framework was agreed in 2015-16 and through the support of the Group, 289 staff achieved higher level qualifications.

The year has not been without its challenges however, as the sector is affected by further government changes to funding, delays in the European funding and the demographic downturn in the number of 16-19 year olds. Despite all of these challenges, it has been the continued commitment and hard work of all Hull College Group staff that has ensured our students continue to thrive and succeed as we support them in the next phase of their journey into further higher education or employment.

As ever, my personal congratulations and thanks to all our staff, governors and partners who continue to strive to ensure the success of Hull College Group.

Gary Warke MBE
Chief Executive
During my time as President of the Hull College Group Students’ Union, I have been extremely proud to represent my fellow students. It’s been a pleasure to have worked with such a wide range of staff, with students at the heart of everything they do, to support and improve their experiences at College.

Throughout the year, students have demonstrated the range and strength of talent we have across the Group. They have achieved at a range of levels, from those within the 14-16 Colleges to HE students and I have enjoyed celebrating their successes with them at graduations and award ceremonies. Students have dedicated themselves to doing their absolute best in and outside their studies, from dramatic performances to representing their College in national and international competitions.

Well done to all of my fellow students – my hope for the coming months is that you all continue to reach your potential and strive for excellence.

Lee Pearson
Hull College Group Students’ Union President
The members of the Group Management Team as of July 2016 were as follows:

- **Gary Warke MBE**
  Chief Executive
- **Tony Sutton**
  Chief Operating Officer
- **Graham Towse**
  Principal Hull College
- **Debra Forsythe-Conroy**
  Principal Harrogate College
- **Caron Wright**
  Principal Goole College
- **Emma Yarke**
  Managing Director, HCUK Training
- **Alastair Thomson**
  Group Director, Higher Education
- **Andrew McCarroll**
  Group Director, Quality, Standards and Student Experience

**Corporation of Hull College Group**

**Membership from 1 August 2015 to 31 July 2016**

**Governors**

- Ms Pat Tomlinson  Chair
- Mr Paul Hollins  Vice Chair
- Mr Chris Fenwick  Vice Chair – appointed October 2015
- Mr Andrew Manderfield  Vice Chair – appointed October 2015
- Ms Melissa Askew
- Mr Stuart Clark
- Ms Allah Hamid
- Ms Hilary Jack
- Ms Karen Keaney
- Mr Shane McMurray  Staff Governor
- Ms Emma Palmer  Re-appointed July 2016
- Mr Lee Pearson  Student Governor – term of office ended June 2016

**Individuals Co-Opted on Committees**

- Mr Chris Roberts  Re-appointed January 2016
- Mr Nick Swash  Re-appointed February 2016
- Mr James Tabor  Staff Governor
- Mr Gary Warke MBE  Chief Executive (ex officio)
- Ms Melissa Askew  Re-appointed October 2015, resigned February 2016

**Group Management Team**

- John Applegate
  Director of Funding and Information Services
- David Mullaney
  Director of Estates and Facilities
- Lizann Lowson
  Group Head of Young People
- Stephen Gorking
  Director of Operations, HCUK Training
- Alison Taylor
  Director of Human Resources and Organisational Development
- Bella Abrams
  Director of Innovation and Technology
- Richard Bayford
  Head of Service, Finance & Procurement
- Matthew Lilley
  Head of Service, Marketing and Communications

Learners and apprentices have very positive attitudes to learning

Ofsted report 2015
During the last financial year the Group’s total income was £49.8m. This followed funding changes and the completion of Skills Support for the Workforce delivery.

Expenditure reduced from £59.9m to £53.2m due to reduced staff costs and costs related to Skills Support for the Workforce delivery.

The Group’s performance was significantly affected by large or exceptional items including:

- Write down of value of the sale of Rhino Training
- Dilapidation relating to the exit of leasehold buildings in Harrogate
- Restructuring costs
- FRS 17 changes relating to pensions

Financial Summary

**Income**

- Funding Body Grants £37.7m
- Tuition Fees and Education Contracts £9.9m
- Other Income £2.2m
- Total Income £49.8m

**Expenditure**

- Staff Costs £33m
- Restructuring Costs £0.9m
- Other Operating Expenses £16.8m
- Depreciation £1.9m
- Interest Payable £0.6m
- Total Expenditure £53.2m

Provision is exceptionally responsive to local and regional priorities

Ofsted report 2015
Organisational Development

Staff Learning and Development
Over the last year the Group has been highly resourceful in its approach to organisational development as both teams and individuals have engaged in the innovation agenda and creative ways of providing learning and development. Better utilisation of in-house online learning resources, further developed blended learning and “upping” our use of apps and social media to name a few, have contributed to the range of resources and enhanced provision available to staff.

Examples include
Short Sharp Video – all staff, not only academics, are encouraged to capture their delivery and share through our staff portal; enabling cross group access and building on positive skills/practice and consistency across the Group.

Repository for learning and development – new resources, skills, learning, toolkits, additions, updates etc; are available for all staff to explore and use to enhance their everyday work as well as support specialist requirements.

Investment in aligning compliance and validation requirements including mandatory training has saved time and money as well as encouraging colleagues to discuss and share thereby enhancing the CPD aspect of learning and development.

Additional development opportunities available during 2015/2016 included the Yorkshire Accord Coaching and Mentoring Programme with 2 intakes each supporting a minimum of 6 colleagues and the Aspire Development Programme in our 6th Year which saw 6 applicants offered places on the programme.

The Group also continued to support a range of funded short and long-term learning including:
• First Aid – including Mental Health First Aid attended by over 30 staff
• Over 20 staff attended CPD and role/subject related conferences delivering learning and feedback for colleagues across the Group
• Leadership and Management attracted multiple applications for Levels 3, 5 and 7
• Maths, English and subject related learning continued to be popular with a range of options from ETF delivered programmes to internal enhancement
• We were also able to access external funding for the majority of our Learning Support Assistants to achieve Level 2 in maths, English and IT
• Annual Staff Learning and Development Weeks saw an increase in attendance and positive feedback
• 267 sessions were provided in the Spring which included Acceptable Standards, British Values, Microsoft Office, Open Access and E-learning, E&D, Safeguarding and Manual Handling First Aid.
• Changes to the O&I process has also seen an improvement in attendance and application of learning – this continues to improve as we progress through the year.

Qualifications, Skills, Knowledge and Learning Development:
During 2015/2016 we received just under 300 funding applications for learning and development. Of these 228 were either approved for funding or are pending; together these equate to 80% of applications being approved.

The Group continues its policy of supporting teaching and learning staff in gaining the appropriate qualification and requires them to work in accordance with the ETF Professional Standards thereby helping ensure excellence in practice.

The year saw a change to the title of a number of traditional courses for Teaching and Support staff such as Level 3, 4 and 5 in Education and Training. Completion and success at Level 4 enabled colleagues to take advantage of the Bridgeing Course provided in conjunction with the University of Huddersfield which supports individuals to access Year 2 of the Cert Ed/PGCE programme.

13 colleagues were funded for Level 3, 4 and 5 in Education and Training, Cert Ed, PGCE and the APEL Bridging course.

Supporting Vocational Learning
In support of vocational learning, 18 colleagues undertook either Level 3 Certificate in Assessing Vocational Related Achievement or Level 4 Award in the Internal Quality Assurance of Assessment Processes and Practice.

Studying for a Degree
There are twelve staff studying for a Bachelor’s degree in topics such as BA Education and Professional Development, BA in Education and Training and BA in Computing.

Higher Education
Overall interest expressed by staff in continuing their formal education and embarking on higher level courses has increased.

Support Staff
In order to ensure all staff are able to access relevant learning and development opportunities, full programmes in using IT such as Excel, Word and PowerPoint have been made available with colleagues having the option of investing in formal certification.

Blended learning essentials has been open to all staff seeing numbers steadily increase throughout the year.

2015/2016 saw a more holistic approach through the inclusion of mindfulness, coaching, mentoring, mental health and wellbeing in the staff development list of opportunities with excellent levels of representation from both academic and support staff. Learning and development included: Information, Advice and Guidance, Mindfulness (Stress and Practitioner based), Mental Health First Aid, Designated Safeguarding Officer training, SEN including Autism and Asperger’s, mandatory Equality & Diversity and Safeguarding, as well as increased attendance and engagement in our full suite of Small Change Big Difference short sessions and events.

Each term staff development days are made available for all staff and focus on the service needs identified through our all staff review programme. Alongside the set days a drive for sharing good practice and peer support across the year is underway to develop and maintain excellence across the Group. This is supported by Evidence based practice which is key to our teaching learning and assessment delivery.

Staff – Our Most Important Investment

Studying for a Degree
There are twelve staff studying for a Bachelor’s degree in topics such as BA Education and Professional Development, BA in Education and Training and BA in Computing.

This is supported by Evidence based practice which is key to our teaching learning and assessment delivery.
Harrogate College
A £6m campus redevelopment for Harrogate College has seen brand new industry standard facilities opening for the start of the 2016/2017 academic year, constructed by Hall Construction Group and project managed by MACE.

A number of vocational areas have been enhanced to mirror industry standards, such as the Bistro on the Park training restaurant and the Image Academy hair and beauty salons, open to the public from October 2016.

The build of the Technology Centre has provided a home for the motor vehicle, electrical, welding and joinery workshops, in a purpose built environment that allows students access to top of the range equipment, such as electrical installation booths sponsored by Dunnington Electricals and joinery equipment sponsored by Howden’s Joinery.

The front of the main building has been transformed into the ‘high street’ where the training bistro, hair salon and HG2 Café will be accessed in order for students to gain valuable experience of working in a ‘real life’ placement.

Goole College
The Goole Logistics Hub and Business Centre opened in September 2015, formerly an obsolete kitchen area refurbished through a Humber LEP Growth Deal project. The modern, high specification teaching, conference and event venue is now supporting the curriculum and commercial growth plans of the college for key local industries.

Goole works also included an extension of the existing engineering and welding workshop to provide a bench based work space for the launch of carpentry, joinery and construction courses at the College. Funded by the Humber LEP Growth Deal the workshop provides a high quality vocational learning environment to support skills delivery for key sectors in the local area.

Hull College
Park Street to HU1 Visual Arts Studios
The Park Street site has been subject to a competitive market tender process for disposal, this process involves the approved bidder now completing Planning matters leading to the sale of the property.

The redevelopment also includes two state of the art science laboratories and a two floor art and design department, including photography studios, print dark rooms, fashion studio, recording studio and spacious art studios, enjoying views of the rolling Yorkshire countryside.

Hull College/Siemens Composite Blade Manufacture site
The new Composites Training Centre progressed well with the Blade School opening in early February ahead of the original start date for the first trainees from Siemens, the second phase for the specialisation training followed a couple of weeks later. The official launch was on the 4th March 2016.

Steve Prescott Sports Centre
Since taking over the lease at the Endeavour Sports Centre (now renamed the Steve Prescott Sports Centre) a considerable amount of remedial work has taken place to ensure that it is fit for purpose for the College. This has involved major works to the heating system, electrical and data circuits, general building repairs and flooring, in addition to a large amount of decoration. The building is now being used by the curriculum and there are further plans to expand this.

Consideration is also being given to how the sports facilities can be utilised by the College to promote the health & well-being agenda. The facility is now also being offered for use by the local community and sports clubs, including the West Hull Gymnastics Club, Hull United, the Hull Roller Dames, Child Dynamix and lately Champion Soccer and The Tigers Trust.

Hull College/Siemens Composite Blade Manufacture site
The new Composites Training Centre progressed well with the Blade School opening in early February ahead of the original start date for the first trainees from Siemens, the second phase for the specialisation training followed a couple of weeks later. The official launch was on the 4th March 2016.

Led by the Estates and Premises team, Hull College Group has achieved the green level accreditation with Investors in the Environment for the third year running, this is the highest achievable level and consists of a wide range of criteria being met, demonstrating a sustained commitment to reducing the environmental impact of the organisation.

The Group has been able to demonstrate a 30% saving in carbon emissions since 2010. Notably there has been a significant reduction in the following areas:

- Electricity by 15%
- Gas by 23.5%
- Water by 49%
- Paper by 51%

This has been achieved by a number of significant projects around the estate to include LED lighting, extra and consistent monitoring and reporting and the introduction of MFD machines.

The target for the coming year is to continue the impressive savings generated.

Investors in the Environment Award
Continued Success 2015/16

While the Division celebrated its first birthday, preparation for the 2017 Apprenticeship and Skills reforms commenced as the team proactively supports local and regional business to plan effectively for the changes which places funding firmly in the hands of the employer.

The breadth of Apprenticeship frameworks HCUK Training has available to employers has been carefully reviewed in line with changing business need and will include additional Higher level and Degree level pathways. The Group OFSTED result reflected the ongoing high quality and success of the overall Apprenticeship offer which benefited over 5000 individuals across a national profile.

The excellent reputation of the Employability Team continued to grow with a move to the KC Stadium in the summer, enhancing the level of service and quality of the training environment to our unemployed and ESOL customers.

The highly successful Skills Support for the Workforce contract which supported 1000 SME employers in the Humber in 14/15 was succeeded by a second bid submitted by HCUK Training to lead on the £6m Humber Skills Support for the Workforce and Redundancy contract. Further testament to HCUK Training’s commitment to local skills development and growth.

The diversity of the customers we engage with either through business or individually remain a priority for the Division as we look to the future of an inclusive, local, highly skilled and productive work force contributing to the overall growth and stability of the region.
